

Orgelkids UK

Orgelkids UK

At the Sign of the Pipe is proud to offer the *Orgelkids* organ for sale and to continue the spirit of the original idea by making the organs using traditional materials and techniques. The main structure of the organ and the pipework is made of English oak. The wind is provided by two hand-operated bellows that feed into a weighted reservoir. The keys open the pallets by a suspended action.

Each organ comes as a kit in a sturdy flight case that fits into the boot of a standard car. Each kit comes with a colour booklet that gives step by step instructions on assembly. The English-language pages of the *Orgelkids* website (www.organlekids.nl) gives extra background information on the organ and several pieces of music composed specially for the organ can be downloaded.

Each **Orgelkids UK** organ is made to order and delivery will be six months from the date of placement of order and payment of a deposit. The purchase price includes personal delivery of the kit to a mainland UK address and a demonstration of its assembly. Delivery of a kit to Northern Ireland, the Scottish Highlands and Islands, the Isle of Man and the Channel Islands will be done by courier and is included in the purchase price.
